This paper presents three figures/diagrams and concepts taken from the author's doctoral thesis, *F. F. Bosworth: a historical analysis of the influential factors in his life and ministry* (University of Pretoria, Date: 2010-07-30, <http://repository.up.ac.za/handle/2263/26869>). The figures illustrate some of the author's findings related to F.F. Bosworth's development as a healing evangelist.

Although Bosworth's Pentecostal experience, faith, prayer life, and healing testimonies had a tremendous impact on his life, they were not the only factors that contributed to his success. This research revealed that his development as a healing evangelist was shaped by experiences that were secular and spiritual, negative and positive. They were experiences that occurred in his childhood and adulthood.
